

Professor Francesco FEDI, PhD

President COST

25 October 2009

Dear Dr. Fedi,

My name is Takashi Nohmura, president of Photocatalysis Industrial Association of Japan.

This letter is to express our appreciation toward all the courtesy and efforts which provided by your COST540 action in Photocatalysis Standardization issue in Europe.

With your COST540 chairman Dr. Frantisek Peterka's respectful invitation to our association PIAJ, we could join as experts from Asia in the discussions to establish International Standard in Photocatalyst materials testing protocol.

Now, We PIAJ hope significantly contribute to COST540 Action final meeting by organizing joint conference –exhibition in Praha, Czech Republic focused to present status of the field in applications and proving their performance by Standard Testing.

Based on agreement with chair and MC management of COST540, after previous joint meeting proved to be successful, we already started preparation and believe that your program will allow us to attend.

Today, the Green technologies and Environmental conservation are the worldwide concerns.

We believe that your action will provide all the participants great opportunity to contribute a gift to the next generations.

Thanks again, We appreciate your all the cooperation and God Bless You.

Sincerely,

Takashi Nohmura; President of PIAJ

---

Tatsuya Imura; Vice President of PIAJ

---

Yoshio Okamoto; Chairman of International Committee of PIAJ
