

# PHOTOCATALYSIS

## AFNOR Structure

### Standardisation Committee AFNOR B44A

#### 1 / National work program

Subject : Elaboration of national standards with a view to define the Photocatalytic processes

- Terminology standard

- Specific standards

##### Atmospheric applications

###### **NOx**

Leader : M. PLASSAIS – CTG ITALCIMENTI

###### **VOC and odors, photocatalytic materials, chamber recycling test**

Leader : Mme GUILLARD – IRCE LYON

###### **VOC and odors, photocatalytic air cleaner, chamber recycling test**

Leader : M. KARTHEUSER – CERTECH

###### **VOC and odors, photocatalytic air cleaner, one pass test**

Leader : M. GINESTET - CETIAT

###### **Micro-organismes**

Leader : M. ROBINE - CSTB

##### Water applications

##### Coatings applications

###### **Ceramics**

###### **Paints**

###### **Concrete and cement**

###### **Glass**

##### New technologies applications

#### 2 / International work program

- ISO/TC206/WG33 « Test method for air purification performance of photocatalytic materials »

- ISO/TC206/WG37 « Test method for photocatalytic materials » «
